- **Database & SQL:** DBMS, RDBMS, DDL, DML, DQL,Joins, Subqueries, Aggregate Functions, Window function.
- **Data Analysis:** Data cleaning, Exploratory Data Analysis (EDA), Statistical Analysis
- **Python Libraries:** Pandas, Numpy, Matplotlib, Seaborn
- **Ms Excel:** Pivot Tables, VLOOKUP, HLOOKUP, INDEX/MATCH, Charts
- **PowerBi:** Leadership, Power Query, DAX, Data Modeling, Data Visualization, KPI reporting
- **Ai Tools:** ChatGPT, Claude
- **Professional Skills:** Communication, Teamwork, Problem-Solving, Critical Thinking

ACADEMIC PROJECTS

Project 1 : Deepfake Detection System

Description: Built a CNN-based deepfake image detection model and deployed it using Flask for real-time predictions. Applied image preprocessing, normalization, and model inference to identify manipulated facial images

Key Skills: Python, Flask, HTML, CSS, Javascript

Project 2 : Multi-Touch Marketing Attribution & ROI Analysis

Description: Cleaned and analyzed marketing campaign data using Python and SQL Server. Used SQL window functions to analyze customer journey touchpoints. Implement First-Click and Linear Attribution models to evaluate channel performance, campaign ROI, and revenue contribution.

Key Skills: Python, Pandas, SQL Server, SQL Window Functions, Marketing Analytics

Project 3 : Blinkit Sales Analysis Dashboard

Description: Developed an interactive PowerBI dashboard to analyze Blinkit sales performance, product categories, outlet performance, and customer purchasing trends.Created key performance indicators(KPIs) and visualizations to generate business insights and support data-driven decision making.

Key Skills: PowerBI, Power Query, DAX, Data Modeling, Data Visualization,Microsoft Excel

INTERNSHIPS (Remote)

Infotact Solutions - Bengaluru, Karnataka **May 2026 - Aug 2026**

Data Analytics Intern:

Performed Data cleaning, Exploratory data analysis (EDA), and SQL-based analysis using Python and SQL. Worked on dashboard development, cohort analysis, marketing attribution, and demand forecasting.
